OpenClinica: Better data, faster for your clinical trials

About OpenClinica

At OpenClinica, we know clinical trials. They are complex. They are important. And they save lives. Our mission is to make the complex easy so you can get better data, *faster*.

Integrated eClinical solutions

Core Platform
Electronic data capture

Automate and accelerate the acquisition of your study data. Build powerful studies without any specialized technical expertise. One-click publish. Electronic data capture this powerful has never been this easy. You're in full control.

OpenClinica Unite
Pull data from EHR to EDC in one click

Save time and reduce errors by pulling data from EHRs directly into your study database. Make everyone's job easier.

OpenClinica Participate
ePRO/eCOA

Frictionless data capture directly from patients. Auto-send friendly, "just-in-time" notifications through SMS or email with links to complete forms. Works anytime, anywhere, any device.

OpenClinica Randomize
Randomization and supply management

Seamlessly incorporate randomization into your study workflow. Supports any randomization method. Control your study's investigational supplies.

OpenClinica Insight
Reporting and data analytics

Unfettered access to all your study data and metadata. Drag and drop builder for reports and dashboards. Proactive alerts (e.g. for safety events, tasks, etc.).

Why OpenClinica?

All types of studies
(in person, virtual, hybrid, all therapeutics areas and phases)

#1 forms engine in industry

Full control
(build, change management)

One click study publish

Global content library

Pull EHR data in a single click to auto-populate eCRFs

Frictionless patient engagement

Real-time study intelligence

Cost effective

A collaborative partner

★★★★★

> For ease of use, efficiency, and UI, OpenClinica is my first pick. The regulatory support package is robust and validation maintenance is simple and straightforward. Development processes are well controlled and the company is at a mature place in testing and compliance. Aside from really nice software, the people are really lovely and provide excellent support.

Ready for a Test Run?

We'd love to talk with you to discuss your challenges and goals, and how we can help. Of course, we're also more than happy to do a demo or set-up a free trial.
